Jennifer,

I have attached the Cities map of boundaries. If you need anything else please let me know.

Thanks,

**Stacey Bennett**

Hello,

I work for the state agency who maintains a statewide map of cities—we also report those boundaries to the US Census Bureau. When doing a comparison between what we have for Cherry Valley and what census has, I notice an area disagreement. Can you please review the map below and let me know your thoughts? If census is more correct, we may need to look into getting the state map corrected because several state programs, such as DFA sales and use tax lookup, use our boundary data. I look forward to hearing back from you.

Blue line is census. Green color is state. Which is more correct—census or state?
