Subject: Re: City of Calion Boundaries - Census

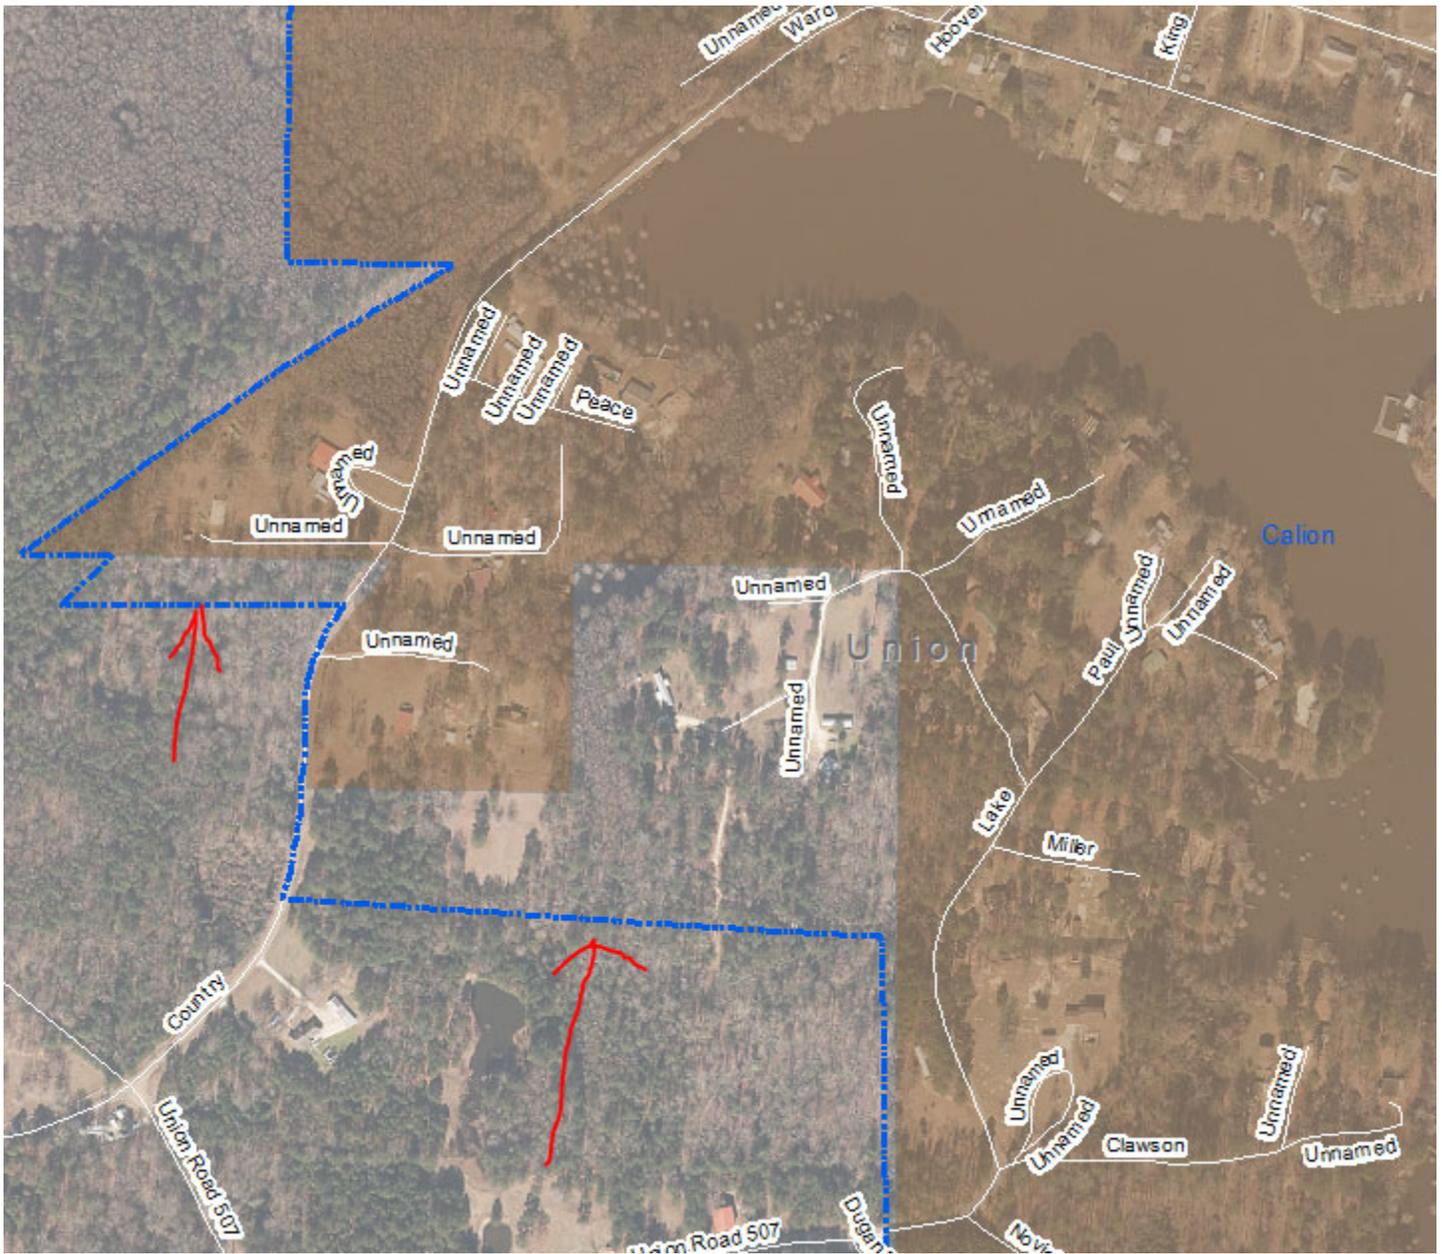

Jennifer,
It appears to me that the brown state city limit is more accurate.
If there is anything I can do please let me know.

Hello!

I met with Mayor Yutzy last week at the ARML Conference and we discussed the differences between what the state has for Calion's city limits compared to the Census. He indicated that the state was more correct than the Census—which indicates we may be able to send a correction to the Census. I tried calling the number listed on ARML's website but it didn't go through. Can you please either forward this to him or someone who can assist? Please see the map below. Which is more correct—Census or state? Thank you!

Blue line is census. Brown color is state. Which is more correct?
